PREVENTATIVE CARE FOR EARLY **DETECTION OF HIGH RISK DISEASES.**

What is covered?

As part of our commitment to your wellbeing, this benefit encourages the early detection of the most frequently diagnosed high-risk diseases. Early treatment reduces the risk of complications and is more likely to secure a better prognosis for $% \left(1\right) =\left(1\right) \left(1\right)$ the patient. This benefit provides cover for specified pathology and radiology investigations, and vaccinations. One consultation is paid from the Preventative Care benefit, thereafter will be subject to the available day-to-day benefits.

All relevant diagnostic procedures and tests are paid from the risk benefit in terms of the rules and protocols.
